Cultivation and agronomic skills

This variety can be managed by short pruning.

Clonal selection in France

The three certified Grolleau gris clones carry the numbers 1118, 1135 and 1136. A conservatory of 15 or so clones was planted in the French department of Val de Loire in 1997.

Phenology

Bud burst: 1 day after Chasselas.

Grape maturity: mid-season, 3 weeks after Chasselas.

Technological potential

The bunches and berries are small to medium in size. This variety produces good rosé wines (or grey wines) and sparkling wines.

Susceptibility to Diseases and Pests

Grolleau gris is susceptible to grey rot.
