

# Madeleine Salomon B

Table grape variety.

## Origin

This table grape variety was selected by E. Salomon in 1893, and corresponds to the traditional Italian variety Agostenga .

## Use

Table grape variety.

## Name of the variety in France

Madeleine Salomon

## Synonymy

In Italy, Madeleine Salomon is officially designated as "Prié blanc". This synonym is officially recognized in France regarding plant propagation material.

## Regulatory data

In France, Madeleine Salomon is officially listed in the "Catalogue of vine varieties" on the A list.

---

## Description elements

The identification is based on:

- the tip of the young shoot with a high density of prostrate hairs,
- the green young leaves with bronze spots,
- the circular or pentagonal adult leaves, with five lobes, an open U-shaped petiole sinus, medium teeth with convex sides, no anthocyanin coloration of veins, a finely blistered involute leaf blade, and on the lower side of the leaves, no erect hairs and a low density of prostrate hairs,
- the ellipsoid berries.

### Phenology

Bud burst: 6 days before Chasselas.  
Grape maturity: very early season, half a week before Chasselas.

### Technological potential

The bunches are small to medium size and very compact. The berries are medium in size, simple-flavored, with a thin skin and a soft pulp.
