Cultivation and agronomic skills

Aptitudes are close to those of Muscat à petits grains blancs. Muscat à petits grains rouges would however appear to be a little bit earlier.

Clonal selection in France

The three certified Muscat à petits grains rouges clones carry the numbers 1194, 1382 and 1383.

Phenology

Bud burst: 2 days before Chasselas.

Grape maturity: early-season, 1 week and a half after Chasselas.

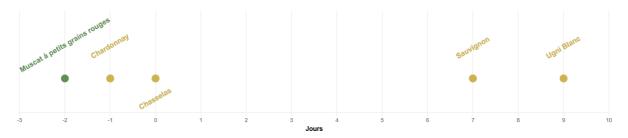

Technological potential

The bunches and berries aare medium in size. Muscat à petits grains rouges produces quality sweet and dry wines. These wines have an average color with a good balance between sugar content and acidity.

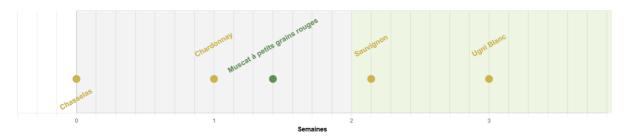

Susceptibility to Diseases and Pests

The behavior of this variety toward diseases is comparable to that of Muscat à petits grains blancs, with perhaps less susceptibility to powdery mildew and grey rot.
