

Aubin vert B

Wine grape variety.

Origin

This variety is originally from the north east of France (Lorraine) and, based on published genetic analyses, it would result from the crossbreeding of Gouais blanc and Pinot.

Use

Wine grape variety.

Name of the variety in France

Aubin vert

Synonymy

There is no officially recognized synonym in France nor in the other countries of the European Union, for this variety.

Regulatory data

In France, Aubin vert is officially listed in the "Catalogue of vine varieties" on the A list and classified.

Description elements

The identification is based on:

- the tip of the young shoot with a medium to density of prostrate hairs,
- the green young leaves with bronze spots,
- the shoots with red internodes,
- the adult leaves with three lobes, a V-shaped or with parallel lobes petiole sinus, a weak anthocyanin coloration of veins, a slightly undulate leaf blade and on the lower side of the leaves, a medium density of prostrate hairs,
- the round-shaped or obovoid berries.

Phenology

Bud burst: 6 days after Chasselas.
Grape maturity: early-season, 1 week and a half to 2 weeks after Chasselas.

Technological potential

The bunches are large and the berries are medium in size. Aubin vert produces common wines, not very alcoholic and relatively acidic.
