

# Semebat N

Wine grape variety.

## Origin

This variety was obtained by INRA in 1956 by crossbreeding Baroque and Cot.

## Use

Wine grape variety.

## Name of the variety in France

Semebat

## Synonymy

There is no officially recognized synonym in France nor in the other countries of the European Union, for this variety.

## Regulatory data

In France, Semebat is officially listed in the "Catalogue of vine varieties" on the A list and classified.

## Description elements

The identification is based on:

- the tip of the young shoot with a medium density of prostrate hairs
- the green young leaves with bronze spots,
- the shoots with red internodes,
- the circular adult leaves, entire or with three or five lobes, a petiole sinus with slightly overlapping lobes, medium teeth with straight sides, a strong anthocyanin coloration of veins, a twisted blistered leaf blade, and on the lower side of the leaves, a medium density of erect and prostrate hairs,
- the round-shaped berries.

### Phenology

Bud burst: 4 days after Chasselas.

Grape maturity: mid-season, 2 weeks after Chasselas.

### Technological potential

The bunches are medium in size and the berries are small. Semebat produces balanced, colored, robust wines with fairly high alcohol degree. Under unfavorable conditions, it can have herbaceous aromas.
