

# Tannat N

Wine grape variety.

## Origin

This variety is originally from the Pyrenees vineyards.

## Use

Wine grape variety.

## Name of the variety in France

Tannat

## Synonymy

There is no officially recognized synonym in France nor in the other countries of the European Union, for this variety.

## Regulatory data

In France, Tannat is officially listed in the "Catalogue of vine varieties" on the A list and classified. This variety is also listed in the catalogues of other Member States of the European Union: Bulgaria, Greece, Italy and Portugal.

## Description elements

The identification is based on:

- the tip of the young shoot with a very high density of prostrate hairs,
- the reddish young leaves with bronze spots,
- the pentagonal, dark green adult leaves, entire or with three or five lobes, an elongated central lobe, a slightly open or closed petiole sinus, short teeth with straight sides, a moderate anthocyanin coloration of veins, a revolute blistered leaf blade, sometimes undulate between the main veins, and on the lower side of the leaves, a medium density of prostrate hairs,
- the round-shaped berries.

### Cultivation and agronomic skills

Tannat is a fairly vigorous variety that is usually pruned long and must be trellised.

### Susceptibility to Diseases and Pests

Tannat is sensitive to mites and vine leafhoppers. It is also a little susceptible to grey rot.

### Clonal selection in France

The twelve certified Tannat clones carry the numbers 398, 399, 472, 473, 474, 475, 717, 794, 944, 1048, 1154 and 1175. A conservatory of more than 300 clones was planted in 1995 in the French department of Pyrénées-Atlantiques.

### Phenology

Bud burst: 4 days after Chasselas.  
Grape maturity: mid-season, 3 weeks and a half after Chasselas.

### Technological potential

The bunches are large while the berries are small to medium in size. Tannat produces colored, very tannic and lively (with slightly harsh acidity) wines. This variety gives powerful, full-bodied quality wines, that are suited to ageing.
