Cultivation and agronomic skills

Terret blanc's aptitudes are comparable to those of Terret noir.

Clonal selection in France

The two certified Terret blanc clones carry the numbers 1071 and 1072. A conservatory of more than 200 clones was planted in 2001 in the French department of Hérault.

Phenology

Bud burst: 9 days after Chasselas.

Grape maturity: late-season, 5 weeks after Chasselas.

Technological potential

The bunches are large and the berries are medium in size. Terret blanc produces neutral and relatively acidic wines.

Susceptibility to Diseases and Pests

Terret blanc is especially sensitive to powdery mildew.
