Allele 2	147	236	247	191	204	258	248	243	271

Cultivation and agronomic skills

Italia Rubi is sensitive to millerandage and slightly sensitive to dessication of the stems. It is a vigorous variety, with a semi-erect bearing, that must be trained and pruned long.

Clonal selection in France

The only certified Italia Rubi clone carries the number 1122.

Bibliographic references

- Documentary collections of the Centre de Ressources Biologiques de la Vigne de Vassal-Montpellier, INRAE - Institut Agro Montpellier, Marseillan, France.

Phenology

Bud burst: 6 days after Chasselas.
Grape maturity: late-season, 4 weeks after Chasselas.

Technological potential

The bunches are large, conical-shaped and moderately compact. The berries are also large but sometimes, the size and color are not homogeneous. The skin is moderately thick and the pulp is fleshy. The flavor is pleasant, slightly muscaté.
