

# Carcajolo blanc B

Wine grape variety.

## Origin

Carcajolo blanc is a native variety from the vineyards of Corsica. It is not the white version of Carcajolo.

## Use

Wine grape variety.

## Name of the variety in France

Carcajolo blanc

## Synonymy

In France, this variety can officially be called "Carcaghjolu biancu" regarding plant propagation material. In Italy, Carcajolo blanc is officially designated as "Alvarega".

## Regulatory data

In France, Carcajolo blanc is officially listed in the "Catalogue of vine varieties" on the A list and classified. This variety is also listed in the catalogue of Italy.

## Description elements

The identification is based on:

- the tip of the young shoot with a high density of prostrate hairs,
- the yellow young leaves,
- the dark green adult leaves, with five, seven or nine lobes, deep U-shaped lateral sinuses, an open U-shaped petiole sinus, medium to long teeth with straight or convex sides, no anthocyanin coloration of veins, a blistered slightly revolute leaf blade, and on the lower side of the leaves, a low density of erect and prostrate hairs,
- the round-shaped berries.

Allele 1	131	223	239	188	188	248	238	235	261
Allele 2	153	244	247	191	204	250	254	235	271

### Cultivation and agronomic skills

Carcajolo blanc is a fairly productive variety and it requires careful training. It is reserved to hot and well-exposed terroirs in order to reach a proper maturation.

### Clonal selection in France

The only certified Carcajolo blanc clone carries the number 1283. A conservatory of four clones was planted in 2005 in the Corsican wine-growing region.

### Phenology

Bud burst: same as Chasselas.

Grape maturity: mid-season, 3 weeks after Chasselas.

### Technological potential

The bunches are large and the berries are medium to large in size. Carcajolo blanc has a low sugar accumulation potential. It produces average quality wines with good acidity but low alcoholic degree.

### Susceptibility to Diseases and Pests

Carcajolo blanc is fairly susceptible to powdery mildew and to grey rot.

### Debourrement

### Maturité
